MD. MURSALIN AHMMED ZAMZAM

CSE Student | MS Word & PowerPoint | Python

GitHub: github.com/mursalin-decen • Portfolio: mursalin-ahmmed-portfolio.vercel.app

PROFESSIONAL SUMMARY

Dedicated Computer Science & Engineering student with strong proficiency in Microsoft Word and PowerPoint, experienced in preparing project reports, technical documentation and presentations. Also builds software projects in Python and works comfortably on Windows and Ubuntu. A clear communicator with team-lead experience, available for paid, project-based work with flexible free time.

ACADEMIC BACKGROUND

B.Sc. in Computer Science & Engineering | *4th Semester (ongoing)*

Northern University of Business and Technology, Khulna (NUBTK)

- Intensive study of IT infrastructure and system administration.
- Laboratory research and technical documentation projects.

KEY PROJECTS

- **Blood Donation BD –** Open donor directory web app (Next.js, Supabase) where anyone can register with a blood group and people in need can search and contact donors directly. Built for the university community.
- **Campus Sync –** Section-wise notice web app where students share and track CT, suggestion and presentation notices for each course section.
- **SafePath BD (Python) –** Emergency safety app with SOS alert, live location sharing, fake call and safe-route features.
- **Memory Game & Rain Sensor Systems –** Logic-based systems delivered with complete project reports and documentation.

LEADERSHIP

Project Team Lead | *University Projects*

- Led multidisciplinary teams in academic environments to deliver technical solutions.
- Coordinated communication and managed resource allocation for group success.

TECHNICAL PROFICIENCY

- **Documents:** Word for formal reports and documentation; PowerPoint for project presentations.
- **Programming:** Python (actively practicing) and hands-on project development.
- **Systems:** Windows setups and Ubuntu (intermediate); Kali Linux (beginner).
- **Hardware:** Practical experience in logic-gate-based architecture and circuit analysis.
