MD. MURSALIN AHMMED ZAMZAM

CSE STUDENT | SOFTWARE & WEB PROJECT BUILDER

Khulna, Bangladesh • +880 19116-57396 • mdmursalinzamzam2004@gmail.com

GitHub | LinkedIn | Portfolio | WhatsApp

PROFESSIONAL PROFILE

Computer Science & Engineering student at Northern University of Business and Technology, Khulna, with hands-on experience building academic and personal projects across web, Python and Android. Skilled in preparing technical reports, project documentation and presentations using Microsoft Word and PowerPoint. Interested in practical problem-solving, user-focused digital products and collaborative project work, while actively developing programming and Linux skills.

TECHNICAL SKILLS

Programming & Development: Python (actively practicing), Java (Android project work), web application development

Tools & Platforms: VS Code, Android Studio, Git, GitHub, Vercel

Hardware & Electronics: Logic gates, circuit design and analysis, sensors, hardware troubleshooting

Operating Systems: Windows (professional), Ubuntu Linux (intermediate), Kali Linux (beginner)

Productivity: Microsoft Word, PowerPoint, Excel; technical documentation, report formatting and presentation design

Professional Skills: Team coordination, communication, troubleshooting, time management and quick learning

SELECTED PROJECTS

CampusSync — Section-wise Academic Portal *Web application*

Academic portal for sharing and tracking class-test notices, suggestions and presentation updates across university sections. View project

PeopleFinder BD *Web application*

People-discovery web project featured in the developer portfolio. View project

Blood Donation BD *Next.js, Supabase*

Open donor directory where people can register with a blood group and users can search for and contact potential donors. View project

Veltrix Wear BD *Web application*

E-commerce website project focused on presenting and browsing fashion products. View project

AI-Powered Facial Analysis *AI / Web*

AI-themed facial-analysis web project demonstrating an interactive web experience. View project

Binary Souls *Web / UI*

Creative web experience and visual-design project included as a featured portfolio piece. View project

SafePath Bangladesh *Python*

Student safety application concept with SOS alert, live-location sharing, fake-call and safe-route features. View project

ADDITIONAL PROJECTS

Smart Job Portal — Recruitment System *Software project*

Recruitment-focused software project designed around job-seeker and hiring workflow needs. View project

Task Management Web App *Web application*

Web application project for organizing and tracking tasks. View project

Invoice Android App *Android*

Android application project focused on invoice-related workflows. View project

Matchcard Game *Java*
Java-based memory and matching game project. View project

Number Guess Game *Programming*
Interactive number-guessing game project. View project

Snake-Water-Gun (Pygame) *Python, Pygame*
Python game project built with Pygame. View project

Awesome Python Projects *Python*
Collection of Python practice and utility projects. View project

HARDWARE PROJECTS

Rain Sensor Alarm System *Digital logic / Electronics*
Designed and implemented an automated rain detection system using NOT gates, rain sensors and buzzers to provide real-time alerts. Involved detailed circuit analysis and hardware troubleshooting.

Parking Lot Indicator System *Digital logic / Electronics*
Logic-gate based parking system built with sensors and without a microcontroller; displays a red signal when the parking area is full.

Signal Jammer (Cybersecurity Project) *In progress*
Ongoing hardware project developed as part of cybersecurity learning and research.

EDUCATION

B.Sc. in Computer Science & Engineering *4th Semester (ongoing)*
Northern University of Business and Technology, Khulna (NUBTK)
Academic focus: IT infrastructure, system administration, laboratory work and technical documentation.

LEADERSHIP & COLLABORATION

- Project Team Lead in university projects; coordinated team communication and supported delivery of technical solutions.
- Collaborated in academic project environments and helped organize tasks and resources.
- Prepared project reports, technical documentation and presentation materials.

CORE STRENGTHS & LANGUAGES

Communication • Teamwork • Leadership • Punctuality • Responsibility • Adaptability • Quick Learning
Languages: Bengali — Native | English — Fluent
